# THEORY OF CHANGE

**Program Level Domain**
**Influence of HCDExchange on HCD+AYSRH Practice**

**System Level Domain**
**Influence of HCD on AYSRH Program Performance**

## HCDEXCHANGE FOCUS AREAS

- Expand and deepen membership of the Community of Practice

- Identify, consolidate, and support the generation of new evidence on application, evaluation and effect of HCD in AYSRH

- Increase opportunities for learning and practising HCD+AYSRH

- Amplify youth voice and leadership

## HCDEXCHANGE OUTCOMES

**OUTCOME 1: AWARENESS**
Increased awareness of the role and value of HCD in AYSRH amongst practitioners and institutional level actors

**OUTCOME 2: CAPACITY**
Increased organizational capacity to apply HCD+AYSRH. (An understanding of HCD+AYSRH quality standards & engage youth in application of HCD+AYSRH)

**HCDExchange Community of Practice Goal**

**Increased application and improved quality of HCD+AYSRH among practitioners and institutional level actors**

*Line of Accountability*

*Programs are better able to:*

Reach and engage meaningfully with adolescents (emotionally, geographically, socially, modality)

Develop interventions collaboratively with stakeholders, esp adolescents

Identify and address social, cultural, and influencer barrier and facilitators

Adapt/iterate/improve interventions during implementation

Respond to adolescents' needs, desires and aspirations. (information, products, services; format)

Offer higher quality youth experience of SRH programming

## PRECONDITIONS

Increased adolescent voice and agency in SRH programs and guiding their future

Improved enabling environment for AYSRH

Increased feasibility and lower risk associated with AYSRH solutions and interventions

Increased satisfaction with programs, services, products, and partnerships among adolescents and service providers

Increased integration of innovative approaches to AYSRH programming

## LONG TERM OUTCOME

**Increased engagement, uptake, and continuation of FP/SRH services and products for youth and adolescents**
